

Уауауу

Catalogue 2015

uayayu was born with the idea to create modern, convenient and beautiful stationary for decorating and organising celebrations and children's parties, as well as childrens' rooms or kid's corners. The same illustration concept we adopt to our greetings cards offering various series with different styles.

Our illustrations are old-school: drawn by hand and with a lot of passion. All our products are made in Germany from carefully selected materials respecting high quality standards.

We work with pure white, certified recycled paper and vegetable inks to respect environment and nature and to take care of our children, the most pure and authentic we have.

Thank you for being interested in our creations.
